PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years of hands-on experience building scalable, production-ready web applications using the MERN stack. Strong expertise in React.js for complex frontend architectures, REST API integration, backend development with Node.js, and cloud-based deployment on AWS. Proven ability to independently handle complete application lifecycles, collaborate with US clients, and deliver high-quality solutions aligned with business needs.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- **State Management:** Redux Toolkit, Zustand
- **Backend:** Node.js, Express.js, RESTful API Design
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Cloud & DevOps:** AWS (EC2, S3), CI/CD Pipelines, Netlify, Vercel
- **Tools & Practices:** Git, GitHub, Agile/Scrum, API Integration, Performance Optimization
- **Testing:** Jest, React Testing Library, Unit Testing

PROFESSIONAL EXPERIENCE

Full Stack Developer – Blaze Web Services, Madurai (Jul 2024 – Present)

- Designing, developing, and maintaining end-to-end web applications using React.js and Node.js for live production systems.
- Built reusable, scalable UI components using React Hooks, improving maintainability and performance. Integrated secure and efficient REST APIs to handle real-time data and complex business logic.
- Actively involved in deployment, monitoring, and CI/CD workflows on AWS cloud infrastructure. Collaborated with cross-functional teams via GitHub pull requests, code reviews, and Agile ceremonies.

Full Stack Developer – Cerulean Solutions, Madurai (Oct 2023 – Jun 2024)

- Developed scalable frontend modules using React.js and TypeScript for enterprise-grade applications.
- Implemented API-driven dashboards to visualize operational data, enhancing decision-making efficiency.
- Worked closely with backend teams to ensure seamless data flow and API consistency. Improved application responsiveness and code quality through refactoring and best practices.

KEY PROJECTS

PAYNS – Logistics Management Platform | React, Next, Node.js, Type Script, Chakra UI, REST APIs

- Developed end-to-end modules for container shipment tracking and logistics workflows.
- Integrated real-time APIs and optimized UI performance for internal users.
- URL: <https://payns.io/en>

CERTIFILY – Certificate Automation System | React, Node.js, Mysql,

- Built automated certificate generation, preview, and download workflows.
- Implemented validation, backend integration, and reusable UI components.
- URL: <https://app.certifi.ly>

GROVER – Team & Performance Management Platform | React, REST APIs

- Developed dashboards for team management, role assignment, and performance tracking.
- Focused on usability, scalability, and clean UI architecture.
- URL: <https://app.grovertalent.com>

CERTIFICATIONS & TRAINING

IITM Pravartak Certified MERN Full Stack Developer – HCL GUVI (Oct 2025 – Present)

Advanced hands-on training in MongoDB, Express.js, React.js, Node.js, system design fundamentals, and industry-oriented full stack development practices.

EDUCATION

Bachelor of Computer Science and Engineering

Jayaraj Annapackiam CSI College of Engineering, Anna University

CGPA: 8.2 | Aug 2019 – Apr 2023
